Plotters (Credits)  
2023-22  
video 4K, 81:01, with sound

An 80-minute walk through the city in the form of scrolling credits, which usually occupy the final minutes of a film. There is no film in this case. Only the city and its authors.

This work derives from Domicz's previous work "To my friends. Next Room (Hotel Monterey)."

To my friends. Next room (Hotel Monterey)

2021

video 3K, 07:55, with sound

The video consists of rooms (scenes) and corridors (timeline). It tells in a direct fashion a story about creation of a utopian commune. The fate of which is closely intertwined with the history of the place, the economy and the director's vision. The typology of the apartment occupied by the protagonists turns out to be more durable than the need to change the function of this place and its forms of inhabitation.

Technically, all camera shots come from the 1973 movie „Monterey Hotel” by Chantal Akerman.

after Królikiewicz  
2019  
video HD, 07:04, with sound

Two characters in the act of leaving and a fragment of the lecture describing space outside the frame by Grzegorz Królikiewicz.

„A static shot, at the bottom one can see the path, the character enters the frame, passes by in front of the camera and disappears on the other side. The camera does not rotate, but we know that the path continues further. After some time, the same character passes again in front of the camera in the same direction. Despite the lack of camera movement, we know that it stands in the middle of a circular path on which the character is walking.”

Construction

2018

video HD, 08:55, with sound

“Construction” describes the development of film and architectural space unveiling its form, structure and purpose. Narration is determined as a combination of scenes within a certain timeline. However it may be also viewed as a spatial arrangement of rooms in a building.
